NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Pare, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything would eat would seem to be so heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

Nasal CATARRH

In all its stages.

Ely's Cream Balm

cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

ELY BROTHERS, 56 Warren Street, New York.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Weak Kidneys

Weak Kidneys, surely point to weak kidney Nerves. The Kidneys, like the Heart, and the Stomach, find their weakness, not in the organ itself, but in the nerves that control and guide and strengthen them. Dr. Shoop's Restorative is a medicine specifically prepared to reach these controlling nerves. To doctor the Kidneys alone, is futile. It is a waste of time, and of money as well.

If your back aches or is weak, if the urine scalds, or is dark and strong, if you have symptoms of Brights or other distressing or dangerous kidney disease, try Dr. Shoop's Restorative a month—Tablets or Liquid—and see what it can and will do for you. Druggist recommend and sell

WEIGHT OF THE HUMAN SOUL.

His curiosity aroused while present at the bedside of dying patients Dr. Duncan MacDougal, of Haverhill, Mass., aided by four other physicians of high professional standing, has been for the past six years in a private sanitarium near Boston, experimenting to discover the existence or nonexistence of a soul in the human body. As concrete results it is claimed that through their researches the mysterious human soul has at last been catalogued upon scientific principles, just as is the heart, the kidneys, the stomach and vital organs of the body—as an actual material thing; that when this soul flits from the body it diminishes the weight of the body by a certain measurable amount, and that this amount can be weighed in actual pounds or fractions of pounds.

The difference between the weight of the live human body and the body a moment after death, or when the soul has quitted it, was found to be from one-half ounces to one ounce, and to this it is said there can be no other possible solution except that it is the weight of the human soul.

In every case the loss was shown after all known scientific deduction—such as the loss of respiratory air, of moisture and of all excretions and secretions of the body—had been taken into consideration. In nearly all cases the diminution took place the instant life ceased to exist in the body, although in one case there was a delay of nearly a minute, believed to be due to the sluggishness of that particular soul in realizing that its physical fetters had been broken. The method of finding this result was to place the patient in bed upon one of the platforms of a pair of scales made especially for the experiments, and then to balance this weight by placing an equal weight in the opposite platform. These scales were so delicately constructed as to be sensitive to a weight of less than one-tenth of an ounce.

In every case when the soul was set free by death the platform opposite the one in which lay the subject of the test fell sud lenly, just as naturally would have happened if a weight had been taken from the opposing balance. The figures on the dial index indicated the diminution in weight.

Dr. McDougal declares his belief to be that this soul substance is so fine that it could not be confined by any known material that man possesses. He does not believe that if the body was confined in a steel case the instant before death there would be a possibility of keeping the soul shut in.

BANDIT AND VICTIM KILLED.

C. B. Green, aged forty-five years, one of the best known merchants of Columbia, S. C, was shot and killed Saturday night by a masked highwayman in a desperate encounter, in which the bandit himself was also slain and afterward discovered to be Edward Marshall, the son of a well-known business man. Robbery is supposed to have been the sole motive.

The shooting occurred about 11 o'clock but the bodies of the men were not discovered until about 3 o'clock yesterday morning. Green's clothing had been on fire, his body being badly charred around the heart and side, where the bullets took effect. A roll of greenbacks was burned in twain.

The feet of the men were less than a foot apart, showing that they faced each other when they were killed. At Green's right hand lay a .32-caliber revolver, with four empty chambers.

Near Marshall's right hand was a 44-caliber six-shooter with five empty chambers, while a 38-caliber pistol, which had not been fired, was at his left hand. Under his body was a well-made leather slung-shot, having two pounds of small shot in the end. Near his head lay two burglars' masks, one having two outlet holes in it and was clotted with blood.

Marshall was shot twice through the head and once through the right breast, while Green had three bullets through his heart. The back of his hand was covered with blood, indicating that he may have had a struggle with his assailant. Several pieces of silver were found scattered about Green's body. The finding of the two masks and three hats lead to the belief that Marshall had an accomplice, but up to this time no arrests have been made.

Marshall was twenty-four years old, unmarried, and the son of the manager of the department store of J. L. Mimnaugh, of Columbia, S. C.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poison enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by E. S. Leadbeater & Sons, druggists.

Complies with all requirements of the National Pure Food Law, Guarantee No. 2041, filed at Washington.

Oranges and Ice.

One of the unique features of the Pacific coast region is witnessed every winter in Nevada county, a little north and east of Sacramento, where a big ice crop has been harvested and within a few miles a big orange crop gathered, both harvests going on at the same time.

Nevada county is one of the smallest counties in California, but at Truckee, which lies at an elevation of about 6,000 feet, sleighing, skating and ice cutting were the order of the day during January, while 5,700 feet below strawberries, oranges and roses were being picked, these widely separated occupations being carried on by the participants almost in sight of one another.

Another invoice of the celebrated POTOMAC FLOUR just received by J. C. MILBURN.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, MAR. 11, 1907.

WILLIAM JOHNSON, the negro who is charged with killing Charles T. Smith, is now in jail in a neighboring city, and at the proper time he will be brought to Alexandria and placed on trial before the Corporation Court. Johnson, according to his own confession, is a criminal, but he denies that he shot Smith. He, however, gives confused accounts of his movements on the night of the shooting, as well as contradictory stories concerning his procedure on the following Sunday night. While all the facts point to the prisoner as the man who fired the shot on upper King street on the night of October 20, it is possible that his partner (Robinson) was the slayer. The whereabouts of the latter are still unknown to the authorities, and Johnson asserts that Robinson was the man who used the pistol, but he does not deny that he was on the scene when the shooting occurred. The large majority of the people in this community favor giving the negro an impartial trial, and that scenes which disgraced Alexandria a few years ago be not repeated. Many believe that the taking of the prisoner to Fredericksburg was unnecessary and that with proper precautions no trouble incident to his being placed in jail here would have ensued.

THE RESULT of the trial of the negro Steptoe at Danville should prove a warning to would-be lynchers. The complainant, a young white woman, when the darkey was at first arrested failed to identify him as her assailant; later she said she was convinced that he was the criminal. The accused was allowed an impartial trial, when the negro proved an alibi to the satisfaction of the court and jury and he was accordingly released. A number of years ago a woman was the victim of a negro assailant near Georgetown, and a colored man, resembling the assailant, was arrested. The woman positively identified him as the man who had attacked her. The darkey later proved he was over one hundred miles from Georgetown when the assault was committed. He was dismissed and later another negro was arrested whom the woman identified, and the accused later confessed his guilt. Lynching is a dangerous procedure, and terrible mistakes have occasionally been made.

ON THE same day with the news about the scheme whereby Louisiana has hoped to bring in European labor, in spite of the contract labor law, comes the opinion of Attorney General Bonaparte, declaring it unlawful for a State government to pay the passage of immigrants or to assist immigration otherwise than by advertisements. The sweeping character of the Attorney General's decision will, if the latter is sustained by the courts, thwart every plan thus far hit upon by the Southern States for relieving the acute labor famine. If, says the New York Tribune, Mr. Bonaparte has correctly construed the contract labor law, it ought to be amended at the earliest opportunity. No one would lose anything by an inrush of farm hands, and the whole country, first of all the South, would be enormously benefited.

IN ORDER to construct the two 20,000 ton battleships which are deemed necessary to keep the United States in line with other world powers in point of maritime fighting capacity the Navy Department asked for $12,000,000 with which to buy necessary armor-plate. The House cut down this particular appropriation to $10,000,000, and in that shape it finally passed. But, says the Philadelphia Record that, ten million dollars will not buy the necessary armor-plate in this tariff-bedevilled and highly protected market. The steel trust will not budge in its prices. It will not be possible to go on making the contracts for both battleships until there shall be a further appropriation. There will have to be some delay until the new Congress shall be ready to make new raids upon the treasury.

THE TRIAL of the Strother brothers at Culpeper for the killing of William Bywaters attracted much attention throughout the country, but there was a significant fact in connection with the same which stands in marked contrast to incidents connected with the trial of Harry Thaw, now in progress in New York, for the killing of Stanford White. In the trial in Virginia only women compelled to be present as witnesses appeared in the court house, while it was necessary to exclude hundreds of women who endeavor to force their way into the New York court house.

IN COMMENTING upon the sudden influx of fresh eggs upon the New York market, The Evening Post observes that "the hens rise to the situation." IN AN article on "The American Woman" in the current number of the Nation, an English writer describes the American society woman as a show or an entertainment which pleases her husband, and for which he is willing to pay the bill. Some of them are "bum" shows, too, and not worth the price.

THE INDIANA LEGISLATURE has been so overrun with lobbyists this session that finally it was ordered that the floors should be kept clear of them. Such an order should be enforced in every legislative body in the country.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, March 11.

According to the best authority at the State Department no representations have been made, or will be made, by this government to Nicaragua because of the disagreement between United States Minister Merry and President Zelaya, of Nicaragua, over the adjudication of the $30,000 claim of Sam Weil, the New Orleans man who declares he has been unfairly treated by Zelaya. The positive statement was made today at the State Department that no information has been received from Minister Merry indicating that there was any physical encounter between his party and the Nicaraguans. State Department officials were inclined today to ridicule the sensational reports relating to the departure of Minister Merry from Nicaragua for Costa Rica, the county in which he makes his headquarters. It is true however that Merry has reported his failure to reach any agreement with President Zelaya in the matter of the old Weil claim and that his last interview with Zelaya was not of a very amicable nature. Minister Merry's departure from Nicaragua was not, it is stated, accompanied by any sensational features. The whole affair is discredited at the State Department.

Archie Roosevelt, who has been suffering from diphtheria for the last ten days, was reported to be quite out of danger today. The physicians announce that the patient's condition is so favorable that no more bulletins will be issued. Their main concern from now on will be to keep the lively youngster quiet and safeguard him from any excitement that might bring on an attack of heart trouble. Archie Roosevelt's condition is regarded as so favorable by Dr. Rixey that he is planning to order the fumigation of the apartments that have been quarantined since the inception of the disease.

The State Department has received the following despatch from Mr. Philip Brown, secretary to the American legation to Guatemala and Honduras: "The government of Honduras states that three steamers with armed forces aboard are off the north coast near Celba and an attack is expected." Celba is the principal port on the north coast of Honduras. Immediately upon the receipt of this dispatch from Mr. Brown, the Navy Department was informed of its contents and, it is believed, the United States gunboat Marietta, which is now lying at Bluefields, Nicaragua, will be ordered northward to Celba.

Dowie's Obsequies.

Chicago, March 11.—The last tribute of Zion City to its founder will be accorded Thursday afternoon, when the remains of John Alexander Dowie will be given a great public burial. An elaborate service will be held in Shiloh Tabernacle at 2 o'clock. The body will be interred in Lake Mound Cemetery, in the center of Zion, beside his daughter Esther, who died two years ago. The service promises to throng the tabernacle as it has not been crowded since Dr. Dowie proclaimed himself the first Apostle in 1905. Stores, factories, and schools will be closed. The Tabernacle will offer a most impressive spectacle on Thursday. On the platform will be the leaders of the present administration and of the small band of orthodox believers in the doctrines of the Christian Catholic Apostolic Church, who have never wavered in their fealty to Dowie. The full Zion choir of several hundred members will sing requiems. The funeral oration will be delivered by Judge Barnes, present head of the Zion law department. The body of the dead leader, clad in a magnificent apostolic robe of white satin, embroidered with purple, gold, and scarlet, will be removed from Shiloh House to the Tabernacle just before service begins. During tomorrow, Wednesday, and part of Thursday the body will lie in state in the reception hall of Shiloh, where the public will be admitted to view the body.

Senator Spooner's Successor.

Lacrosse, Wis., March 11.—Given assurances that Senator LaFolette will not publicly indorse any one to succeed Senator John C. Spooner, Congressman John J. Esch has announced his candidacy for the position. Esch's friends say that Stephenson will be unable to control enough votes to make him a factor in the race and Lenroot has not been backed by LaFollette.

The Missing Boy.

Wilmington, Del.—March 11.—Former State Detective Theodore Francis, received a letter from a detective in Philadelphia in which was enclosed a communication. The communication stated that upon the receipt of a certain sum of money the Marvin boy would be returned to his parents. Mr. Francis thinks there is something in the letter and will call the attention of Governor Lea and the District Attorney's office to it.

Thaw's Statement.

Harry K. Thaw issued the following statement Saturday through his counsel, Daniel O'Reilly.

"I wish to deny as emphatically as possible the published report that my sister, the Countess of Yarmouth, is desirous of bringing about a separation between my wife and me at the conclusion of the trial. Perfect harmony exists between my wife, my sister and myself, as it did between all the members of my family. Such a thing as a separation has never been and never will be considered by me or any of my relatives.

"The Countess of Yarmouth is very friendly with Mrs. H. K. Thaw, and holds her in the highest esteem.

"As for myself, my love for my wife is greater than it ever was before, if that is possible. I hope that this denial from me will forever set at rest the absurd story of a possible estrangement. It is peculiarly regrettable to Mrs. Thaw and myself that such a story should have emanated from the source it did."

Alonzo Ross, of Winifred, Johnson county, Ky., is dying at Huntington, W. Va., the result of an encounter early yesterday morning with Henson Nicely, ajealous rival of Huntington. Ross was seated in the parlor at the home of Miss Arva Warren, when Nicely entered. A few words passed, when Ross seized a chair and struck Nicely. Nicely whipped out a knife and completely disemboweled Ross, who fell forward in the young woman's arms. Both men were prominently known. Nicely lives next door to where the tragedy occurred, and his mother, hearing the encounter, seizer a revolver and was rushing to the aid of her son, when she was overpowered by Miss Warren's stepfather and disarmed. Nicely is in jail.

Death of Former Senator Pugh.

Former Senator James L. Pugh, of Alabama, died at his home, in Washington Saturday night, of pneumonia. James L. Pugh was born in Burke county, Ga., December 12, 1820 and removed to Alabama when four years old. He began the practice of law in 1841. In 1859 he was elected to Congress, retiring from the Twenty-sixth Congress when Alabama seceded from the Union. When the civil war broke out he joined the First Alabama regiment, serving as a private until elected to the Confederate congress, in 1861. He was re-elected in 1863, afterward resuming the practice of law.

Upon the death of George S. Houston, Mr. Pugh was elected to the United States Senate, taking his seat December 6, 1880. Re-election followed in 1884 and in 1890. His term of service expired March 3, 1897.

The remains of former Senator Pugh, will be taken this evening to his old home at Eufaula, Alabama where he spent his boyhood days, for burial.

Death of W. H Boaz.

Hon. William H. Boaz died at his residence at Covesville Saturday night after an illness which had lasted, with varying degrees of severity, several years.

Mr. Boaz was born in Albemarle county July 21, 1852. In 1889 he was elected to the House of Delegates, and served in that body almost continuously until a few days ago, when failing health forced him to give up all participation in public affairs. For a number of years he was chairman of the finance committee of the House, and so thorough was he and so comprehensive was his mental grasp, that it has been said of him he was the best informed man in the State on the condition of Virginia's finances. He represented the city of Charlottesville and the county of Albemarle in the Constitutional Convention of 1901. He was elected without opposition and served with distinguished ability on several of the most important committees.

He was a successful farmer and fruit grower and his orchards frequently brought him $25,000 a year.

Corruption in San Francisco.

An exciting meeting of the San Francisco Bar Association was held Friday night. About 100 prominent attorneys gathered to consider the action of Superior Judge Hebbard in granting a writ of error to Abraham Ruef while the latter's trial was pending in a court of coordinate jurisdiction. Assistant District Attorney Heney made a speech declaring that Judge Hebbard was under the influence of liquor when he granted the writ and had been constantly affected by intoxicants for the last three years. Mr. Heney vehemently declared that the actions of the attorneys for Ruef had been more reprehensible than the conduct of Judge Hebbard, in that they had deliberately taken advantage of Judge Hebbard's condition to procure the writ in order to frustrate the progress of justice in Judge Dunne's court. Mr. Dwyer followed in a fierce speech along a similar line.

Mother and Children Asphyxiated.

In a little cock loft or attic about four feet high, between the roof and ceiling of a five-story double frame tenement on Bushwick avenue, Williamsburg, New York, Mrs. Ada Bingalli was found dying of burns and smoke inhalation just before noon yesterday by firemen. Mrs. Bingalli, who was but twenty-two years old, had climbed a ladder to the cock loft, after she found that flames had cut off escape by the stairway, and she had fallen there overcome. Clasped in the mother's arms was her three-months-old baby girl. Another daughter, Maria, three years old, was on the mother's back, with its arms clasped around Mrs. Bingalli's neck. Both the children were dead. The mother, still gripped tightly a bag in which were $31 and a bank book. She died after she had been carried down the ladders from the roof to the street.

Disorders in Louisville.

Louisville, Ky., March 11.—Violent outbreaks followed attempts to run cars this morning. Cars were stoned and operators attacked. Police dispersed the crowds and made arrests.

The street railway company has just announced the suspension of all service with the following statement: "The city is in the hands of a mob. The railway company has enough men to run its cars, but it has no police protection, and the lives of loyal men and passengers are in danger. Therefore, no effort will be made to run cars until this rioting is suppressed."

Suicide of a Boy.

John Smith, 11 years old, threatened with arrest for selling a calf skin a week ago and who had been in hiding since, has been found dead with a broken neck in the Fordville, Ill., church, having committed suicide in a novel manner. He had raised one end of a heavy roll-top desk and, putting his neck under the foot-rest connecting the two sections of the desk, had knocked away the prop, allowing the heavy desk to fall on his throat, fracturing his neck and strangling him to death.

The Thaw Trial.

New York, March 11.—The real fight for the life of Harry Thaw began today, with the presentation of District Attorney Jerome's rebuttal testimony. On his direct case Jerome offered only eight witness, who merely proved the killing of Stanford White.

Jerome has at command much evidence which he believes will throw a different light on the killing than did the defense's case. He will fight hard to get this testimony before the jury.

Henceforth the district attorney's fight will be squarely on the issue of a conviction. His witnesses on rebuttal will be examined to bring out facts to contradict the defense's theory that Thaw was insane when he shot White. The calling in of six additional alienists on Saturday by Jerome has clearly shown his purpose.

Uncontrollable jealousy rather than insanity will be the theory Jerome will endeavor to develop. Frederick W Longfellow was called by Jerome as the first witness this morning.

Longfellow was counsel for Harry K. Thaw at the time of Thaw's first trip to Europe. Nine of the letters introduced as evidence were written by Thaw to Mr. Longfellow. Jerome asked him if he remembered what time in the afternoon the ship docked when Evelyn Nesbit returned October 24, 1903. He could not tell exactly. Jerome said the dock records showed the ship docked at 3:30 and counsel for the defense admitted the fact. In reply to another question Mr. Longfellow said he met Evelyn at the dock. This was the time the State tried to show that Evelyn tried to communicate with Geo. Lederer before she went to a hotel. She was named by Mrs. Lederer as co-respondent in her suit for divorce.

Jerome revealed his intention of overthrowing Thaw's insanity defense almost at the beginning of the examination of Lawyer Longfellow.

He questioned the witness about the suit Ethel Thomas began against Thaw in 1902, alleging he had whipped her. This was the suit Abe Hummel brought but it was never pressed, Hummel's explanation offered to Evelyn Thaw being that Ethel Thomas was a bad woman and the case could not be pushed.

Delmas challenged the question, and Jerome in his argument clearly showed his hand. He argued that he proposed to show that the tales Evelyn told Thaw of other girls being ruined by White and his friends could not have upset his mind, because he had known of the cases recited by Evelyn before he ever heard her own story. Jerome declared he could show Thaw secured this information from law suits.

While Longfellow was on the stand there were several wrangles between Jerome and Delmas and the witness was excused at 12:34 and Dr. Lehane, the coroner's physician, who performed the autopsy upon Stanford White's body, was called to the stand.

Officer Wright, who arrested Thaw, was subsequently put upon the stand, he said he considered Thaw sane as he saw him after the shooting, and Sergeant McCarthy, of the Tenderloin police station, was also called to the stand, he said Thaw appeared rational when examined.

After the examination of these witnesses the noon recess was declared.

The Part Wadsworth Played.

London, March 11.—An official statement given to a correspondent of the Publishers Press today at the American Embassy states what it is claimed are the real facts concerning the connection of Craig Wadsworth, second Secretary of the Embassy, with Mrs. Holman, mother of Evelyn Thaw, during her visit to London in 1903. Mrs. Holman, it is declared, was left without funds while Thaw and Evelyn Nesbit went on their tour of Europe and Wadsworth assisted her.

The attack of the society newspaper, The Throne, on an unnamed secretary of one of the London embassies on Friday, asserting that the secretary had been involved in a great scandal and consequently should resign, although apparently aimed directly at Mr. Wadsworth, will not be noticed officially. Today's unofficially statement is expected to put Mr. Wadsworth right.

When Wadsworth called upon Mrs. Holman, after Thaw and Evelyn had gone to Paris, Mrs. Holman said to him.

"What do you think that little minx of a daughter told me? She said you proposed that she should become your mistress."

Wadsworth never made such a proposal, and the opinion he formed was that Evelyn made the statement to prevent her mother from applying to Wadsworth for assistance, hoping that Stanford White would not learn what was going on through Wadsworth, who was a close personal friend of the dead architect.

The inference drawn at the American embassy regarding Evelyn's testimony on the stand that a secretary of the embassy, whose name was kept secret, "had sneaked into her mother's room in London while she was in bed," is that it was due to a desire to discredit him as the only person except herself, Thaw and her mother, who knew the cause of Mrs. Holman being destitute in London.

All the facts as they are outlined in today's statements have been forwarded to District Attorney Jerome in New York, and it is expected here they will be used in his rebuttal case against Thaw.

Driven out of Managua.

San Jose, Costa Rica, March 11.—William L. Merry, United States Minister to Nicaragua and Costa Rica, is expected here, having been driven out of Managua, Nicaragua, following a fist fight with President Zelaya. Minister Merry's papers and cablegrams were seized by Nicaraguan authorities, it is asserted, and insults offered to the United States. The prediction is made that President Zelaya will find himself in so much trouble on account of his treatment of Minister Merry that his war with Honduras will have to be abandoned. When his papers were seized, it is said, Minister Merry went to see Zelaya. A quarrel ending in a fist fight followed. Zelaya's guards had to interfere to save their master. When Minister Merry started to leave Managua, it is reported, soldiers tried to seize other papers. Drawing a revolver he threatened to shoot the first man who laid a hand on him. He hoisted the American flag on the first steamer leaving and sailed for Costa Rica.

Explosion of Locomotive Boiler.

Metuchen, N. J., March 11.—Three men were killed and several seriously, two of them fatally, injured as the result of the explosion of a boiler on freight engine 2294 of the Pennsylvania railroad early today. The freight train left Jersey City for the West last night, and when just opposite the depot here the boiler exploded, hurling bits of broken iron and steel two hundred yards away. Freight cars were piled one above the other, and there was hardly anything left of the engine except its wheels, while the tracks on both sides were torn up. Several of the crew were buried under the overturned cars, including the fireman and one brakeman and both of these will probably die as the result of their injuries. The wreck caught fire, but the flames were quickly extinguished.

Danger of a Flood.

Albany, N. Y. March 11.—The towns along the Hudson river from Troy south to Hudson face a disastrous flood when the Hudson river breaks up this year, as the water shed of the Hudson and its small tributaries are covered with very deep snow and the ice in the river is still very thick. With mild weather for a couple of days and southerly winds and rain, such as usually prevails about this season of the year, an immense volume of water would be thrown into the channel of the river and this would move the ice very quickly. Gorges would then be sure to form and the cities and towns along the line suffer.

New York, March 11.—Charged with violating the Elkin law in grabting rebates too the American Sugar-Refining Company, on shipments on sugar to Detroit, the Delaware, Lackawanna and Western Railroad was placed on trial before Justice Hough and a jury in the United States Circuit Court today. After the jury had been secured, attorneys for the defense moved that the indictment be dismissed on the ground that it did not state that the offense was "knowingly" committed. The motion was denied and the trial then proceeded.

The rear of the St. Andrews caught fire, but the flames were extinguished. Loss $50,000.

Thirty-four Lives Lost.

Berlin, March 11.—Incomplete reports from Cuxhaven today say that thirty-four lives have been lost by the foundering of two ships. It is said that the George Wetters, a German cargo steamer, and a trawler went down with all on board in a heavy gale in the North Sea. The reports are rather vague and details are lacking.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Johnson in Virginia.

William Johnson, alias George Midget, colored, charged with shooting and killing Charles T. Smith in this city on the 20th of last October, who was arrested in Harrisburg, Pa., a few days ago, is now in prison in Fredericksburg.

Policemen Ferguson and Roberts, of this city, who were detailed by Mayor Paff to carry the requisition papers to Harrisburg, left that city with the prisoner about 1 o'clock yesterday afternoon and were met upon their arrival in Washington by Mayor Paff, Chief Goods and Sergeant R. H. Cox.

Johnson was placed on a south bound Washington-Southern train, and as soon the train reached the Virginia side of the Potomac the policemen delivered the prisoner, who has already been indicted, to City Sergeant Cox, who at once appointed the two policemen deputy sheriffs to assist him in guarding Johnson to his temporary place of confinement.

While the destination of the officers and their prisoner was not announced, it is known that Johnson was carried to Fredericksburg where he was placed in jail to await his trial in this city.

Mayor Paff had a talk with the prisoner in the course of which the mayor ascertained that Johnson had received a bullet wound in the leg on the evening of the shooting of Smith, the ball never having been extracted. After Smith had been shot Johnson fled and was fired upon by policemen as he ran. It is stated that he admitted being the man whose arrest was being attempted when Smith was killed, but he asserted that the fatal shot was fired at random by some one in the crowd.

Johnson told the officers that after he left Alexandria on the night of October 20 he proceeded to St. Asaph and slept in a building at the old race track, and that on the following Sunday night he returned to this city and secretly entered the home of a colored man named Bell, on north West street, where he and Robinson had boarded, and took two pistols from the latter's trunk. [It will be remembered that the policemen took possession of Robinson's trunk on the same night on which the shooting occurred.] The prisoner said he later went to Philadelphia, from which place he subsequently proceeded to the neighborhood of Harrisburg. Johnson said he has not seen Robinson since the night of the trouble on the old fair grounds, and further, that should he be hanged Robinson should suffer a similar fate as he charges him with killing Smith. The prisoner gave a clear account of the first fight which occurred on the old fair ground when he struck Officer Nicholson on the head with the butt of a pistol he had taken from Robinson. He also says he discharged the weapon into the ground. The prisoner, however, pretended ignorance of the facts concerning the second disturbance during which Smith was killed. As stated above, Johnson has a bullet in his right leg. The ball passed almost through the limb and now forms a small wound under the skin. He says he received the wound while running from the officers. Johnson further says that some time ago he and Robinson entered a house in Phoenixville, Pa., in the night for the purpose of robbery, and that a boarder in the house having been awakened was shot and killed by Robinson. [Such a murder occurred, but it is supposed that Johnson told this story in order to avoid being taken to Virginia.]

Johnson recognized Officer Ferguson, calling the latter by name when he entered the Harrisburg jail. He was in a room with a colored woman when taken in custody by the Harrisburg policemen. Johnson carries a Bible with him, and says he has had enough of sporting life. He is warning all young people to beware of the consequences of taking the wrong path in life.

Officers Ferguson and Roberts say they were shown many courtesies by the Harrisburg authorities during their stay in that city.

The March term of the Corporation Court began today. It is a chancery term, but it is understood that when the docket shall have been cleared it will be made a criminal case term by Judge Barley, when Johnson will be placed on trial. The latter has not as yet secured a lawyer, and should he fail to do so, Judge Barley will appoint counsel to defend him.

The services have been conducted by Fathers Waters and Van Ingelgem and they have been attended by large congregations, composed of Catholics and Protestants alike. During the mission the several fathers conducting the same have explained the most important doctrines of the Catholic Church and have replied to querries which have been propounded by persons who have not been reared in the Catholic faith. Their addresses were both interesting and instructive and were enjoyed by all who attended the services.

Anniversary of Blizzard.

Today is the anniversary of the blizzard which prevailed on the Middle Atlantic coast March 11, 12, 13 and 14, 1888, in which Senator Roscoe Conkling was overwhelmed in the snowdrifts in Union Square, New York, while walking home and so exhausted that he died April 17 following. The telegraph poles between Washington and New York were prostrated and news from Europe was received in the former city via Chicago. The blizzard struck Alexandria early on a Sunday night and prevailed with great severity, the snow, high wind and low temperature soon causing the streets to be deserted.

The New Dress Fabrics For Easter.

Voile has always been considered a graceful, pretty fabric.

Silk voile has the same crisp appearance as wool, but in weight is about one-half as heavy as the wool voiles, some woven in open block, the drawn threads giving something the effect of fine drawn work.

The plaid and striped voiles, many with embroidered figures, are wonderfully pretty.

Distinct black and white and blue and white checks, plaids, and stripes are very popular. In the solid colored voiles, apricot, tan, brown, blue, and black, of course, are favored.

The new suitings for the tailor-mades run to light materials both in weight and colorings.

Embroidered black silk grenadines have not been fashionable in many years, but this season bid fair to be ultra-stylish.

No black fabric for handsome dinner gowns, &c., was ever prettier than these heavily embroidered silk grenadines.

The new ones we are showing are especially beautiful.

All of the latest novelties in dress fabrics are now on display.

New French Lingerie and Bridal Trousseaux.

Recent spring importations enables us to show at this time a very complete and varied assortment of French Lingerie, in single pieces and matched sets. The materials used range from the practical percales for immediate wear to the sheerest and finest of nainsooks.

$1.25, $1.50, and $1.75.

Chemises of Percale, with hand-embroidered scallop and spray of embroidery.

Women's Pains

"I was a total wreck," writes Mrs. Beulah Rowley, of Champoeg, Oregon, "from pains I had suffered, for 4 years, every month. Sometimes I would be unconscious for 12 hours at a stretch. I did not know that anything could stop the pain entirely, but Wine of Cardui did. I advise all women suffering with painful periods to use Cardui and be relieved."

It does this by regulating the functions and toning up all the Internal female organs to health. It is a pure, specific, reliable, female remedy, with a record of 70 years of success. It has benefited a million others. Why not you? Try it.

MONDAY EVENING, MAR. 11, 1907.

Steamer Struck by a Wave.

The French liner La Savoie, which arrived in New York from Harre yesterday, experienced more rough weather than her commander, Capt. Tournier ever saw before. A huge sea came over the port side on Wednesday, smashed the oak door of the smoking room, tore away an iron stairway from the main deck to the promenade deck, broke the heavy glasses of all the side ports forward, and deluged the saloon.

Passengers who were playing cards in the smoking room found themselves in water knee deep, and one passenger, Senator A. Houghton, of Boston, who was in a stateroom, declares that he was all but drowned. The water came into his room just as he was shaving, and knocked him off his feet, and when he found himself he was sitting in two feet of water.

The gales began soon after La Savoie left Havre. The passengers were kept in their cabins for two days, and the steerage passengers were not premitted to go out of their quarters.

Health in Canal Zone.

The high wages paid make it a mighty temptation to our young artisians to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by E. S. Leadbeater & Sons, druggists, 50c.

Ducks in China.

There are more ducks in China than in all the rest of the world, says he Dundee Advertiser. China, literally, is white with these birds, and day and night the country resounds with their metallic and scornful voices. Children herd ducks on every road, on every pond, on every farm, on every lake, on every river. There is no backyard without its duckhouse. There is no boat, little or great, without its duck quarters. Even in the cities of China ducks abound. They dodge between the collies' legs. They flits quawking out of the way of the horses. Their indignant quack will not unseldom drown the roar of urban commerce. All over the land there are great duck hatching establishments, many of them of a capacity huge enough to produce fifty thousand young ducks every year. The Chinese duck is extremely tender and delicate—the best tame duck for eating in the world. Duck, among the Chinese, is the staple delicacy. It is salted and smoked like ham or beef.

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. It's nice even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

Piles of people have Piles. Why suffer from piles when you can use DeWitt's Carbolized Witch Hazel Salve and get relief. Nothing else so good. Beware of imitations. See that the name is stamped on each box. Sold by W. F. Creighton & Co., 401 King street.

To remove a cough you must get at the cold which causes the cough. There is nothing so good for this as Kennedy's Laxative Cough Syrup. The liquid cold relief that is most quickly effective, that stills and quiets the cough and drives out the cold. Sold by W. F. Creighton & Co., 401 King street.

Many sufferers from nasal catarrh say they get splendid results by using an atomizer. For their benefit we prepare Ely's Liquid Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain-allaying Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing spray relieves at once and cure is certain. All druggists, 75c, including spraying tube, or mailed by Ely Bros., 56 Warren Street New York.
